

## Welcome to the July Issue of NRx

As UHN's monthly research newsletter, NRx reports on the full spectrum of research from UHN's five research institutes: the Princess Margaret (PM) Cancer Centre, the Toronto General Research Institute (TGRi), the Krembil Research Institute (Krembil), the Toronto Rehabilitation Institute (TRI) and the Techna Institute (Techna).

Stories in this month's issue:

- [Tackling Brain Injury Head-On](#)
- [Shining a New Light on Cancer Risk](#)
- [The Dark Side of Caregiving](#)
- [Treating Hand Tremors](#)
- [Precision Colon Cancer Therapy](#)
- [UHN's New Research Strategy Forum](#)
- [Rehabilitation Researcher Honoured](#)
- [Speech Pathology Research Awards](#)

We hope that you find NRx informative. If you have feedback or questions, please contact [www@uhnresearch.ca](mailto:www@uhnresearch.ca).

Christopher J. Paige, PhD, FCAHS  
*Executive Vice President, Science and Research*  
*University Health Network*

## Tackling Brain Injury Head-On

Study links brain damage in retired football players to learning disabilities.

## Shining a New Light on Cancer Risk

Researchers develop a device to help pre-screen women for breast cancer.

## The Dark Side of Caregiving

Caregivers of ICU survivors are at high risk of developing emotional distress and depression.

## Treating Hand Tremors

Brain region to treat tremors can now be directly and accurately located.

## Precision Colon Cancer Therapy

New combination of genetic markers better identifies those that benefit from anticancer drug.

## UHN's New Research Strategy Forum

Share your ideas about the future of research and innovation at UHN.

## Rehabilitation Researcher Honoured

Dr. Chau's research shown  
to improve the lives of  
those physical disabilities.

Speech-Language &  
Audiology Canada  
Orthophonie et  
Audiologie Canada  
Communicating care  
La communication à cœur

## Speech Pathology Research Awards

Research team receives  
awards from Speech-  
Language and Audiology  
Canada.
