

RESEARCH

SPOTLIGHT

New discoveries from Canada's largest research hospital

With a Little Help from the Gut

Gut bacteria help the antidiabetic medication metformin lower blood sugar in rodents. [/read more](#)

Making Cancer Surgeries Safer

Concentrating high-risk cancer surgeries in designated hospital shortens hospital stays. [/read more](#)

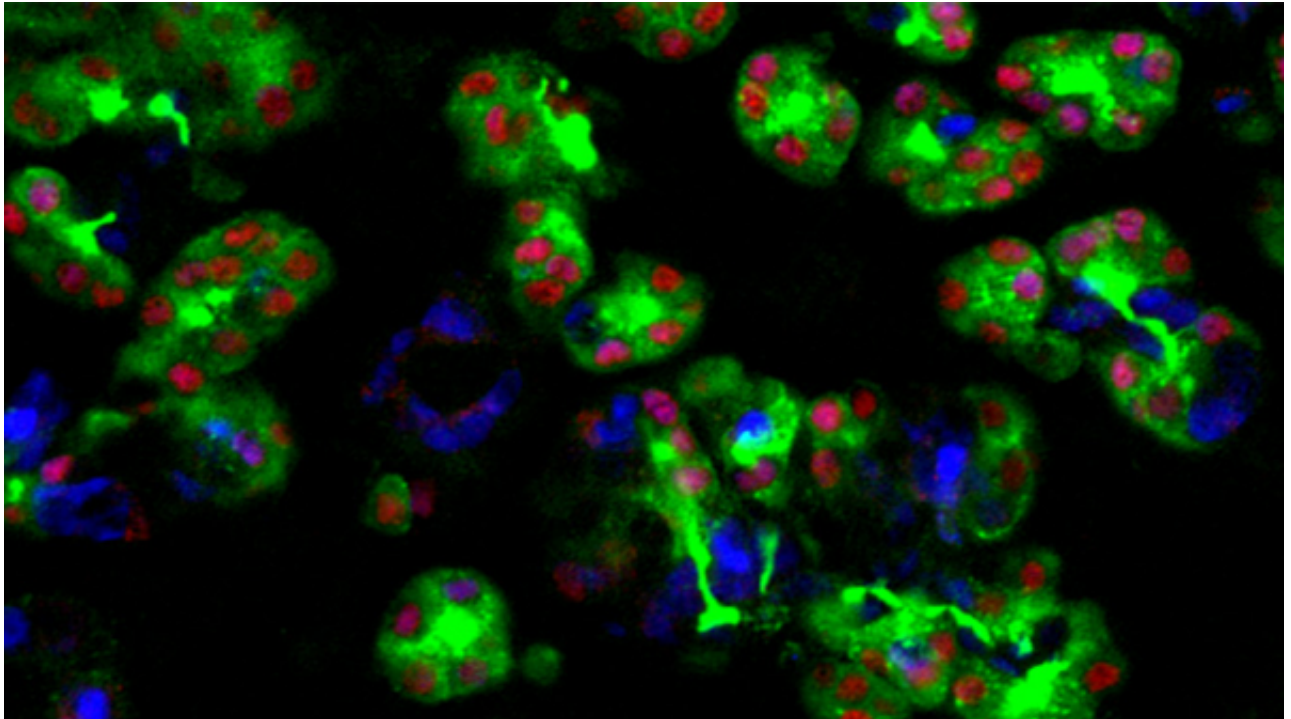

Predicting Osteoarthritis Severity

High-fat diets cause lasting changes in metabolism that may predict osteoarthritis severity. [/read more](#)

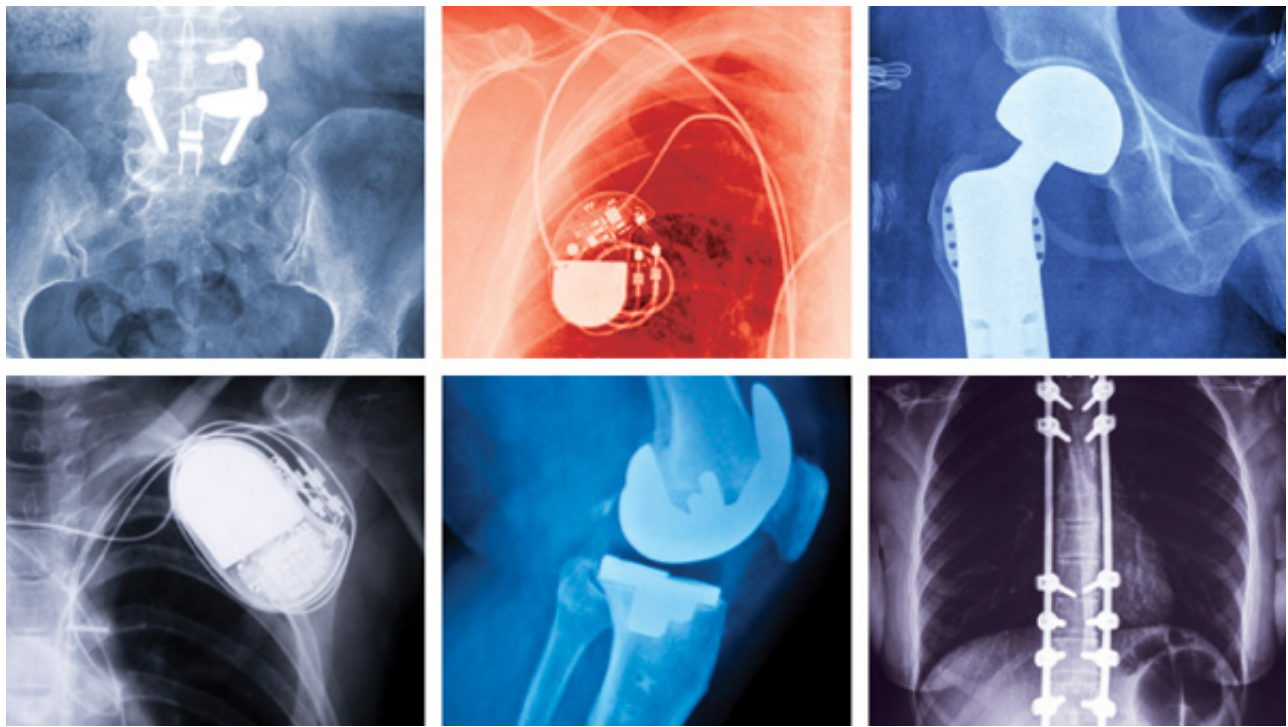

Shock your Socks off

Alternative to compression stockings uses electric stimulation to prevent leg fluid buildup. [/read more](#)

Higher Purity, Greater Safety

Novel method developed at UHN could lead to safer stem cell-derived diabetes treatments. [/read more](#)

Let's Talk about Medical Devices

Improved physician reporting of medical device incidents requires more support from hospitals. [/read more](#)
